584L capacity layered steel Side by Side

Minimal design by eliminating unnecessary elements with recess handles to match todays kitchens.

Exclusive Blue LED Display

Twin Cooling System™

Two separate evaporators and fans give independent cooling of the fridge freezer.

9 Sensors

9 individual Smart Sensors collects condition of the refrigerator constantly

EZ Organization

3-Level Box to the freezer so consumers can easily find and take out storages.

Two-sided Trimmed Shelf

Samsung refrigerator applied Two-sided Trimmed Shelf which makes outstanding use of a space and enhances the interior.

Minimal Frost

A minimal frost model has virtually no ice build-up, helping to eliminate the need for you to defrost the refrigerator again.

LED Lighting

Not only producing a cleaner light and looking great, LED lighting produces less heat, takes up less room, is more energy efficient, and lasts longer than a standard incandescent bulb.
